Laserfibre

*CO-POLYESTER  
TECHNOLOGY  
MADE IN THE USA*

# JB TOUR 100

In collaboration with **James Blake**, **Laserfibre** designed this Tour Grade co-polyester that offers a great balance of control and power for high performance players. It utilizes a quick bonding **titanium dioxide formula** that both strengthens and enhances the strings performance along with a proprietary additive for increased snap-back, ball pocketing and feel.

- 16g (1.30mm), 17g (1.25mm)
- 40' sets, 660' reels
- Color: Silver

## PRODUCT NUMBERS
